

## GREEN DIRECTORY GREEN DIRECTORY GREEN DIRECTORY

### Mission:

To introduce a fairer system under which every vote counts – promoting more representative democracy in Salisbury

### What they do:

Make Votes Matter is a national campaign to introduce a Proportional Voting System to Westminster elections. It is a cross-party and no-party campaign.

With Proportional Representation voters are offered a real choice – every vote is equal and every vote counts. Contrast this with the current First-Past-The-Post system under which many voters place a bet. The vast majority of developed democracies already use Proportional Representation.

Make Votes Matter believe that reforming the voting system will be a timely and important first step towards transforming our democracy.

Make Votes Matter Salisbury is working locally to make votes matter in the UK.
