Mission:

Volunteer action to conserve nature and wildlife in our shared spaces

What they do:

Salisbury Wildlife Group is a group of volunteers who meet regularly to work closely with Wiltshire Wildlife Fund and the local council on conservation projects.

This could be coppicing at Blackmoor Copse, clearing Old Man's Beard at Lime Kiln Down or raking off arisings of Avon Valley reed beds.

Salisbury Wildlife Group needs volunteers and welcomes individuals who want to get involved. Regular activities include scrub-clearance, invasive plant control and ragwort pulling, but there are many other activities undertaken on an "as-needed" basis. No experience is necessary
